FRENCH LOAN WOULD STRENGTHEN MARKET

Release of Hoarded Gold Shipments Are Curtailed Ow- Operations Have Been Fi- Ore Is Coming From 600 World's Annual Output Has Would Stimulate Foreign Investments.

The following market reports are furnished by James A. Pollock & Co., investment brokers, 169 South Main street, having been received over their private vire yesterday;

From Logan & Bryan, New York-Very little can be said of today's trad-The market appears to have assumed a waiting attitude, pending some of a nature likely to stimulate the initiative of the trading element, Liquidation is at low ebb and the buyis confined principally to demands of the short interest. It is quite evident that lack of confidence and an unsatisthat lack of confidence and an unsatisfactory investment demand more than anything else are responsible for the existing status of affairs. The French loan of \$260,000,000, which it is anticipated will be floated in December, is counted upon by many to release much of the gold said to be noarded in France, estimates of which are as high as \$300,000,000, and possibly if the offering is a success it may do much toward stimulating the foreign investment markets, but, aside from that feature, it would appear that some amouncements from Washington to the effect that anti-corporate legislation will be either modified or dropped or some indication of a probable increase in freight rates will be necessary to revive cheerfulness from a domestic viewpoint.

But the rate problems are not likely to

hecessary to revive cheerfulness from a domestic viewpoint.

But the rate problems are not likely to be settled until the first quarter of the new year, and there is no assurance at present of the regular session of congress being devoted to matters of a nature likely to promote a cheerful state of affairs, so we are rather disposed to believe in the view of highly unsatisfactory tendencies in commercial and industrial lines; that the stock list will not display much buoyancy for a period, and that conditions as a whole rather favor a substantially lower level of prices than otherwise.

From Palue, Webber & Co., Boston—Copper weaker today and the selling looked like an organized attempt to depress prices by the bears. The extreme duliness of the market made these tactics possible and resulted in a material reaction all through the list. All classes of coppers have far more than discounted any possible reduction in the price of metal and should be bought for a good raily.

From Gallagher Curb Letter, New

From Gallagher Curb Letter, New York-Market was very dull. There was some hesitation and selling of oil shares early in the session, but the movement netered out and industrials gradually overcame any weakness and closed firm, although trading was not heavy. Among the mining list, North Star had a few points advance on western buying Belmont did not change on announcement of regular dividend, but Tonopah mining advanced on bid to 5½. Close was quiet.

MICHIGAN-UTAH INSTALLS HOIST

ing to Scarcity of Teamsters in District.

N. W. Haire, managing director of the Michigan-Utah property, said yesterday that the company's ore bins at the mine and at the lower terminal of the tramway at Tanner's flat were filled to capacity, owing to the fact that the management has been unable to have its ore hauled on account of the lack of team-sters. Since the advent of the railroad, the teamsters have drifted away, and it now remains for the company to make teaming contracts as soon as possible to have its ore hauled from Tanner's flat to the railroad, a distance of about three miles.

to the railroad, a distance of about three miles.

The company last week installed a hoist in the City Rocks tunnel over the winze leading from the Cleaves tunnel, formerly called the lower City Rocks tunnel. The company retimbered the raise, which was put in more than a year and a half ago, and in doing so had some bad ground to combat. Now that it is finished and hoisting equipment installed, the company will be in position to handle its ore in a more economical manner, in addition to a material saving of time in getting the ore to the smelter.

There are now about twenty-five men employed in the mine, and this force will be increased soon, as Mr. Haire believes the present output will be materially increased after December 1. The last settlement from the smelter netted the company \$30.60 at on; the lot consisted of eighty tons, and assayed \$5 cents gold, \$14.70 silver, \$14.12 copper and \$2.74 lead.

Mr. Haire says sinking will be done from the lower City Rocks tunnel, and that daffting will be continued westward on the \$90 and \$90 levels.

TONOPAH-BELMONT DECLARES DIVIDEND

A dividend of 25 cents a share was posted yesterday by the Tonopah-Belmont Development company. This calls for a disbursement of \$375,000, which will bring the total disbursements for the year up to \$1,000,000. The dividend is payable January I to stockholders of record December 25. When the recent declaration is paid the company will have paid dividends to the amount of \$5,310,000.

ALTA TUNNEL WILL

nanced and Equipment Is Working Smoothly.

Work on the 6000-foot tunnel, which, when completed, will provide drainage and transportation for the mines of Alta, has been started. The tunnel is now 350 feet long, and when completed it will tap the Alta properties 600 feet deeper than the lowest developed point in the district.

triet.

The equipment was thoroughly tested and is now running smoothly. The winter's operations have been financed, and supplies have been laid in to last the working force until spring. At first only one shift of men will be employed, as it is the intention of Superintendent R. L. Mack to get a line on costs before he puts a full crew to work.

A substantial winter shed has been constructed at the portal of the tunnel. The shed has been so arranged that it will be protected from snowslides, as the mouth of the tunnel is directly in line with the frequent slides which begin to occur early in the season.

with the frequent slides which begin to occur early in the season.

It is hoped that a flow of water will be encountered which will be sufficient to develop power with which to drive the tunnel. President Bodfish says he believes that sufficient water will be developed not only for power purposes for the tunnel, but to provide power for all the properties of the Alta district.

LOW-PRICED STOCKS DO BULK OF TRADING

With the exception of Silver King Consolidated and Iron Blossom, the trading done on the local exchange yesterday was confined to the lower-priced issues. May Day, Uncle Sam and Lehl Tintic being the principal traders among these stocks, at prices generally within the range of last week's quotations. Iron Blossom was in demand, and 1500 shares soid for \$1.15 Silver King Consolidated was active, 100 shares going for \$1.70 and 300 shares for \$1.675. Thompson-Quincy continues to be the bright spot among the unlisted stocks and sold yesterday up to 30 cents a share. Complete figures for yesterday follow:

BULLION COALITION WORK ALL WINTER MILLING TO CAPACITY

Level and Large Drain Tunnel Lower Down.

E. J. Raddatz, who recently returned from the property of the Bullion Coalition company, near Stockton, reports the mill to be running to capacity now, treatng fifty tons in eight hours. He says that the ore is coming from the 600 tunnel, which is about a mile and a half long, and from the large drain tunnel lower down, which is about two miles long. The principal values in the ore are silver and lead. Thirty-five men are now employed in mine and mill, and this force will be increased as soon as underground conditions call for a larger crew.

Mr. Raddatz says that the company plans to maintain the present production during the course of development, and that the mill capacity is ample to take care of the output. Operations underground will be continued at the same rate as at present until such a time as development warrants a change in the present operating plans. that the ore is coming from the 600 tun-

present operating plans.
At the time the Coalition company was organized, practically all of the impor-tant properties in the district were taken in. These included the Old Honorine, Honorine Extension, Bullion, Honorine West and Shamrock companies.

UTAH-APEX REPORT SHOWS BIG PROFITS

The report of the Utah-Apex Mining company for the year ended August 31, 1913, shows profits amounting to \$224,-774. The amount charged off for depreciation was \$94,685, leaving a balance carried into profit and loss of \$130,189.

The company expects to add materially to its ore reserves during the coming year by sinking the Parvenu shaft 150 feet, where it expects to find a continuation of the ore body which occurred in the upper workings.

GRANT SNYDER IS BACK FROM COAST

Grant Snyder, manager of the Cliff Mining company, reports the Tony inclined shaft to have reached a depth of 1000 feet below the lower tunnel level, or a total depth of 1700 feet from the surface. Mr. Snyder recently returned from Plumas county, California, where he spent considerable time involved in looking after certain interests which he has in that district.

Ore Shipments. The Utah Ore Sampling company yes-erday reported ore releases as follows. Two cars from Nevada and eight cars

Metal Market.

Prices posted yesterday on the metal market by McCornick & Co. bankers, were as follows: Silver, 58ac, lead, \$4.35; copper, \$14.95. Ore and Bullion.

McCornick & Co., bankers, yesterday eported ore receipts to the value of 60,000 and bullion worth \$70,000 shipped; otal, \$130,000.

A Consumptive Cough.

A cough that bothers you continually is one of the danger signals which warn of consumption. Dr. King's New Discovery stops the cough, loosens the hest, banishes fever and lets you leep peacefully. The first dose checks sleep peacefully. The first dose checks the symptoms and gives prompt relief. Mrs. A. F. Mertz of Glenellen, Iowa, writes: "Dr. King's New Discovery cured a stubborn cough after six weeks' doctoring failed to help." Try it, as it will do the same for you. Best medicine for coughs, colds, throat and lung troubles. Money back if it fails. Price 50c and \$1.00. All druggists, by mail. H. E. Bucklen & Co., Philadelphia or St. Louis. Philadelphia or St. Louis. (Advertisement.)

To the Members of the Greek Community of Utah:
You are hereby notified that a meeting of the members of the Greek community of Utah is hereby called for December 12, 1913, in the Greek church, Sait Lake City, Utah, at the bour of 8 o'clock p. m., for the purpose of removing from office the following named directors of the said corporation, to wit: Peter Farmakis, Andrew Pappas, Tom Poulitans, Nicolas P., Stathakos, Styl Theoharis, Andrew Dokos and Nicolos Bouloukos.
The reason for the said removals is that the said directors have kept the Greek church of the Greek community of Utah without any qualified priest to act and conduct the services and ceremonies according to the doctrine of the Greek church. Second: That the said board of directors have negligently and without good cause, expended the money of the said corporation to the detriment of the same and in defiance of the bylaws and resolutions passed by the members of the said corporation.

The reason that this meeting is called by the undersigned members is because the secretary of said corporation.

laws and resolutions passed by the members of the said corporation.

The reason that this meeting is called by the undersigned members is because the secretary of said corporation, Peter Farmakis, refuses to call said meeting.

NOTICE OF STOCKHOLDERS'

NOTICE OF STOCKHOLDERS'

MEETING. Notice is hereby given that the annual meeting of the stockholders of the Godiva Mining company will be held at the office of the company, room 723 Kearns building, Main street, Salt Lake City, Utah, on Monday, the 1st day of December, 1913, at 2:15 o'clock p. m., for the election of directors and officers for the ensuing year, and for the transaction of such other business as may be brought before the meeting.

JAMES E. BERKLEY, Secretary.

Dated November 3th, 1912. h1271

THIS IS TO CERTIFY THAT I HAVE dissolved partnership with Maud Sugg and will not be responsible for any debts 4ncurred by her after Nov. 22, 1913. Mrs. R. B. Carter. h2665

COPPER PRODUCTION COVERING 32 YEARS

Increased 500 Per Cent Since 1881.

An increase of 500 per cent is shown by figures compiled on the world's annual production of copper covering a pe ried of thirty-two years, from 1912 inclusive, says the Boston News Bureau. The increase in tons was 965,000 for 1912, against 163,000 for 1881. 1898 to 1912 the increase was 125 per

From 1881 to 1912 inclusive each year From 1881 to 1912 inclusive each year recorded an increase in copper production with three exceptions—1907, with a shrinkage of 45 per cent, 1893, 3 per cent, and 1886, 3.8 per cent. The decreases were so slight as to warrant the statement that there has been practically no interruption to growth in copper production in the last thirty-two years.

cally no interruption to growth in copper production in the last thirty-two years.

Since 1893 there has been increase in copper output each year except 1997, when the very insignificant decrease of about 3200 tons, or less than one-half of 1 per cent, was recorded.

A study of world's copper production might lead one not familiar with the copper industry to belief that the industry had experienced no depressed periods, notwithstanding curtailment in other lines. This may be true as to production, but not in prices. In 1899 copper sold as high as 195 cents and as low as 13 cents. In 1201 the high was 17 cents, the low 12 cents. In 1905 sales were made as high as 20 cents and as low as 144 cents. The metal sold as high as 25 cents in 1907 the high of 264 cents was reached, from which there was a slump to 125 cents. Even 1912 recorded a drop from 17 cents to 14 cents. The price is now about 154 to 155 cents. The average price for the last thirty-two years was a fraction below 14 cents.

It is remarkable that copper prices should be subject to such wide fluctuations in face of almost uninterrupted increase in production.

DELINQUENT NOTICE.

Hider Nevada Copper company; location of principal place of business, Salt Lake City. Utah.

WEAK DO NOT **NERVOUS** GIVE DISEASED UP A CURE IS WHAT YOU WANT

Not Sick, Yet Hardly Able to Work GLOOMY---AMBITION

Weakness is the result of many diseases and is the cause of more sorrow and suffering than all other allments combined. I see the victims of this disorder on every hand, his whole appearance proclaiming to all the world his trouble and tending to blight his existence. My treatment cures disordered men by overcoming and removing the effects of disorders. It stops all waste and quickly restores the victim to what nature intended—a healthy and vigorous man, with all his functions and power complete.

CURES GUARANTEED

4" DR. EHRLICH'S FAMOUS REMEDY "606"

For Blood Disorders.

For Blood Disorders.

I use the newest and latest treatment for Blood Poison and Skin Diseases, Professor Ehrlich's (of Germany) "914," the improved 69%, instead of the old remedy "914" is absolutely safe and harmiess and more effective than "606" and can be administered in the office painlessly and with absolutely no ill effects whatever or detention from business. This treatment is far superior to any other employed in the cure of this dreadful disease. Symptoms begin to disappear in a few hours after the administration of the remedy Even though 606 has failed or left bad results, and if you have or ever had this disease in any stage or form, do not fail to call and get this wonderful treatment.
